

I am thrilled that telemarketers will no longer be hijacking my telephone, relentlessly calling me and interrupting my life. Imagine, soon all of us won't be harassed with calls from telemarketers during our dinners, when we are trying to sleep, and during all other time of our lives.

Please ensure the radio stations are prevented from telemarketing us. If I want to listen to a radio station, I turn on my radio. When I don't want to listen anymore, I turn it off. I don't want to listen to radio stations' prerecorded messages. Keep them from parachuting into our lives with their annoying canned phone messages.
